LUISITO VELASCO JR

FULL-STACK DEVELOPER

PROFILE

Adept at software development and project management, I spearheaded key projects, enhancing system efficiency and deployment. Skilled in Laravel, MySQL, and customer service, my work history demonstrates a commitment to excellence and a knack for problem-solving.

WORK EXPERIENCE

Marinduque State University

FEBRUARY 2024 - MAY 2024

Programmer (OJT)

- Collaborated with a team to develop and deploy several projects, including:
 - Customer Satisfaction Survey System: Contributed to coding and system design.
 - Marinduque State College High School Alumni Association Website: Assisted in development and ensured the site was optimized for deployment.
 - Loan Management System: Optimized and refactored code for the Loan Management System, transitioning it from a localhost environment to an online deployment.
- Led the deployment of these systems using DigitalOcean and Hostinger, ensuring seamless operation in an online environment.
- Worked closely with documentation teams to align technical development with project documentation.
- Troubleshot and resolved issues during deployment, ensuring all systems were fully functional and secure.

iCom

APRIL 2023 - OCTOBER 2023

Computer Shop Attendant

- Provided excellent customer service by assisting customers with various computer-related tasks, including downloading, encoding, printing, scanning, and photocopying.
- Managed time usage of computers for customers, ensuring efficient and fair access.
- Assisted with the creation of student assignments, greeting cards, and rush IDs, meeting tight deadlines with high-quality outputs.
- Maintained the shop's equipment and ensured all machines were in working order.
- Handled cash transactions and maintained accurate records of sales and services.
- Managed inventory and ensured all necessary supplies (paper, ink, etc.) were adequately stocked.
